Present Land Use/Zoning/General Plan Designation:

Parks/Open Space, S-Shoreline

Project Description: (please use a separate page if necessary)

The project would involve installation of a full trash capture device that is approved by the State Water Resources Control Board within a concrete lined drainage channel at the location immediately north of the intersection of East Poplar Avenue and North Bayshore Boulevard. The trash capture device would include four screens which would be prefabricated, would be installed at two-foot intervals along a three-foot high by one-foot wide concrete weir wall, and would be secured with stainless steel anchor plates. The project would also provide native vegetation enhancement along Poplar Creek within the Poplar Creek Golf Course to offset project impacts to the Poplar Creek. The project would enhance approximately 1,000 square feet (0.02 acre) of stream. Temporary irrigation would be installed, and a monitoring program would be instituted to ensure that the plantings for enhancement establish.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
